Quarterly Performance Report In Compliance with Act 1222 of 1995 Report Period January 2005 – March 2005

Executive Summary January 2005 – March 2005

In the third quarter of FY 2005 the number of juvenile offenders in state custody increased slightly from 787 in the previous quarter to 824. This is attributed to the number of youth on aftercare increasing from the prior quarter. The number of juveniles in residential facilities remained the same.

Basic demographic characteristics remain unchanged. The population of youth in custody is predominately male (79%). Slightly under half (48%) were committed on misdemeanor offenses. Over half (69%) are sixteen years of age or older.

In the third quarter, twenty-four (24) incidents of suspected abuse or neglect were reported to the DYS internal affairs unit. Of the twenty-four (24) incidents, the Arkansas State Police determined fourteen (14) merited investigation. Of the fourteen (14), one (1) was determined unfounded, nine (9) are unknown, and four (4) remain under investigation. The nine (9) identified as unknown are incidents reported by youth in DYS custody for alleged abuse that occurred prior to placement with DYS. DYS is not privy to the outcome of those investigations.

Status of Cases Accepted by Child Abuse Hotline

^{*} Since the Hotline and the Investigations unit are two separate sections within the Arkansas State Police, the Hotline may accept an incident called in, then later the incident will not be investigated by the Investigations Unit after review of the circumstances. The DYS IAU never receives a follow-up on these reports to know whether they were ever investigated. Some of these incidents occurred prior to the juvenile being committed to DYS. The IAU does not receive notification of the findings in these incidents. Some incidents that are reported in one quarter may not be finalized by the State Police until sometime within the next quarter.
